INTRODUCTORY RATE FOR
NEW MEMBERS

NOT A MEMBER?

NEW MEMBER INTRODUCTORY OFFER:

The Arkansas Environmental Federation (AEF) Board of Directors authorized a one-year introductory rate for new members. During 2018, companies new to the AEF will only pay \$100 plus \$1 for every employee (dues capped at \$350) to become members of the 50-year old organization.

WHY JOIN?

ARKANSAS ENVIRONMENTAL FEDERATION

WHO WE
ARE and
WHAT
WE DO

AEF is a non-profit that provides education for environmental professionals and advocates for balanced environmental policy. We focus on practical, common sense laws and regulations based on sound science and a teamwork approach to compliance, waste minimization, and pollution prevention. The AEF enables information to be exchanged on a daily basis between its members, government regulators, and policy makers. We are in frequent contact with ADEQ regarding what is best for the regulated community in Arkansas.

The Federation hosts four technical seminars every year, as well as a two-day annual convention and trade show. During state legislative sessions, we track every bill that impacts environmental policy. However, a great deal of the AEF's work takes place at ADEQ and EPA Region 6 through stakeholder and working groups. **Our organization's membership comprises the largest alliance of environmental experts in Arkansas.**

MEMBER TESTIMONIALS

Charles R. Nestrud, Attorney at Law
BARBER LAW FIRM PLLC

I have been a member of AEF for over 40 years and served on the Board for most of that time. As the voice of industry, AEF has effectively helped shape the development of an environmental regulatory program that works for both environmental protection and economic growth. Membership in AEF is more than informative, membership offers the unique opportunity to serve on committees and advocate positions that will continue to shape Arkansas' environmental regulatory program. I urge every industry with an environmental permit to join and participate in this important mission.

Kelley Crouch, Environmental Mgr.
DOMTAR

AEF is an invaluable resource for our facility, as well as other manufacturing facilities within the State of Arkansas. The network of EHS professionals involved in AEF provides a wealth of knowledge and expertise in working through state and federal regulatory implementation matters.

Steve Card, Regulatory Affairs Mgr.
ALBEMARLE CORPORATION

Being members is a huge asset to my HS&E staff and our company. Membership in AEF gives us direct access to first class training and allows us to be part of a state and regional network of HS&E professionals. AEF's direct interaction with regulatory agencies enhances understanding and communication of issues for both sides.
